

# Goal:

Learn how to store and hide sensitive electronic data using encryption

# Security threats assessment

What would happen if my laptop was stolen?

Where do I store my sensitive data?

What measures do I take to protect my data?

# TrueCrypt

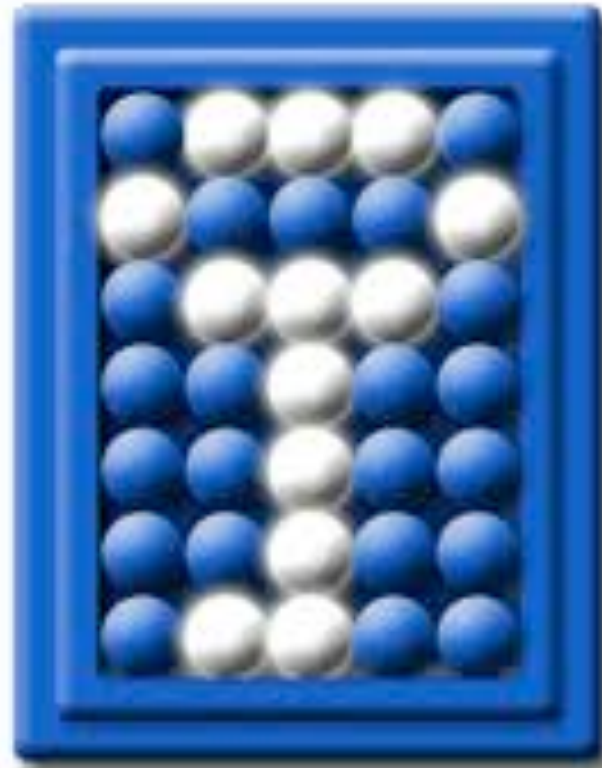

An electronic safe

Immediate Encryption

Hidden Encryption

Portable

Open-Source

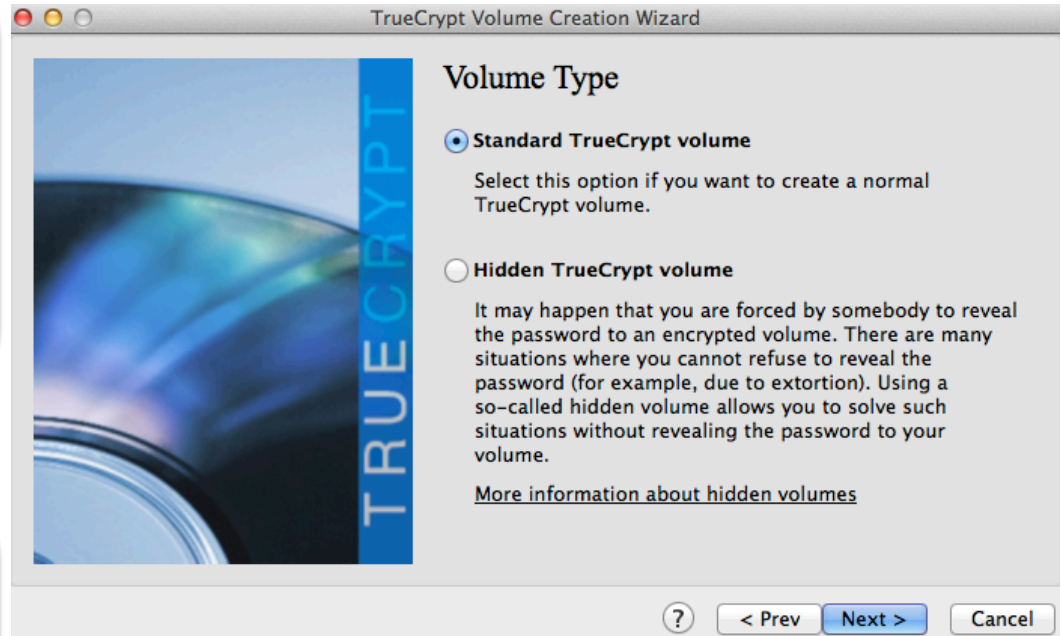

# What can you do?

## You can encrypt:

- File containers
- Volumes within a partition or drive

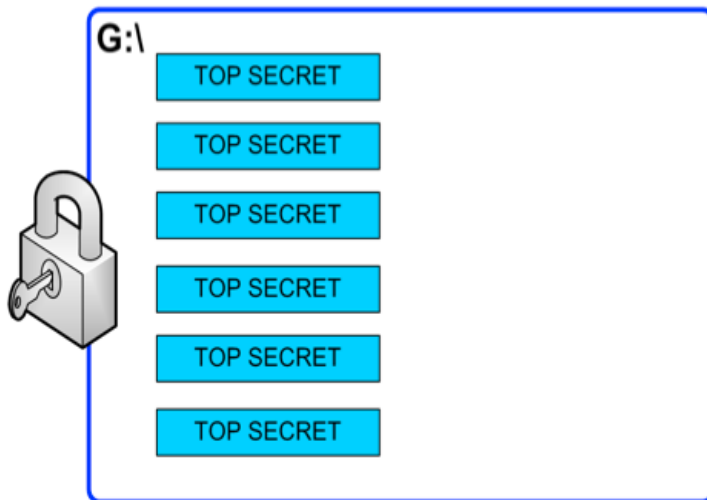

## And store in:

- Standard volumes
- Hidden volumes

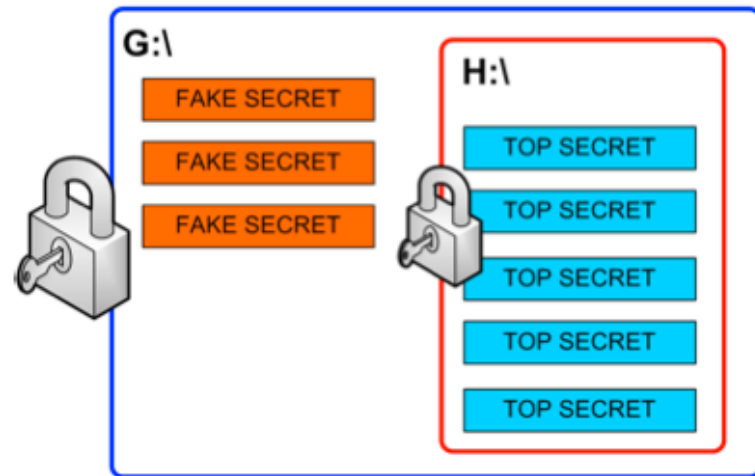

# Standard & Hidden Volumes

My Documents\My Videos\LOST.S03E07.XviD.HDTV.LOL.avi

My Documents\My Videos\LOST.S03E07.XviD.HDTV.LOL.avi

# But Remember...

Your password is the KEY

And...

Encryption has its risks
